Description of Complaint:

Good evening esteemed representatives of Northville and entrusted guardians-

As you may have heard from many of my neighbors by now over a period of time, the foul odors from the arbor hills landfill fairly consistent this summer.

As I walk my dog this evening (9:45 pm at the entrance of Steeplechase subdivision, off 6 mile, in Northville), the odors from the Arbor Hills land site has compelled me to write this email and plead to you all as we have entrusted you with our confidence that you will protect the best interests of your citizens.

I could have contacted MDEQ, as I have done in the past to register a complaint BUT it appears that many of our complains to to MDEQ and Arbor Hills site are falling on deaf ears and are now viewing of us as a nuisance rather than as concerned citizens. I realize many of you probably do not have to put up with the odors coming for a landfill.

I am aware that Arbor Hills has a right to do business but only if they are not VIOLATING THE SANCTITY the surroundings, the environment, and the citizens that are being impacted by it.

It is common knowledge that Arbor Hills has plans to expand the current land fill. On what basis and do we have confidence in them to control emissions and pollutants if they cannot control the existing landfill.

As a concerned father, as a citizen of the great State of Michigan, and of the United States of America, I am pleading to you all with both hands to address this situation as soon as possible. When is enough enough? Have we not learned anything from the unfortunate Flint crisis? If this atrocity continues to happen, be it known that this impending disaster will squarely be on all of your hands - all who have received this message.

I have communicated with to this group in the past only to get a canned response that you will investigate it. It has been over 6 to 8 months now and situation seem to get worse not better and arbor hills continues their planned expansion without addressing current issues.

I STILL have a tremendous faith in all of you that you will do the right thing. I sincerely hope you'll make this a high-priority and addresses as soon as possible.

Regards
